Job description

Have you ever considered a career in the insurance field? Insurance sales offers tremendous opportunity for residual income without spending thousands of your own dollars. We are an independent insurance agency with over 21 years of experience and have openings in South Carolina and neighboring states. Due to expansive growth, we have numerous openings in all lines of coverage. Sales experience is helpful, but not required. If you are an experience agent or are interested in a career change, we would love to talk to you.

If you are new to the field, we can help you select the market for which you are best suited. Options may include Health, Life, Property & Casualty, Commercial, or others including Cyber Security Insurance, or Identity Theft. Marketing to individuals or businesses are options that will also be considered. We will train the right person. Paid internships are also available for college students.

While we provide our agents with office support, web support, training, and other services, this will be a remote work opportunity with rare need to come to office. There are no territory restrictions. We will be conducting interviews weekly. If you are interested, please forward your resume and cover letter
